StorSafe Announces New Sanford Location *A One-Stop Shop for Moving and Storage*

MIAMI, FLORIDA (May 2009) – The management of StorSafe Self Storage announced the grand opening of their latest location in Sanford, Fl, located at 1811 Rinehart Road between SR 46 and the Central Florida Greenway. This newly constructed self storage facility provides more than 74,800 square feet of storage in a 4-story, climate controlled building. StorSafe Sanford offers units sized from 25 to 450 square feet to accommodate the needs of individuals and businesses. To take the stress out of a move, U-Haul trucks and trailers are available for rent on-site while packing and moving supplies are available for purchase.

“Storsafe has been a successful part of our portfolio,” noted Sergio Socolsky, Vice Chairman of America’s Capital Partners which oversees management of all Storsafe facilities. “We were excited at the opportunity to continue to build the brand in Central Florida with close proximity to Sanford Airport, the Auto Train, residential communities, universities and Orlando.”

With a strong operations background, Margaret Steiner was named General Manager of the new StorSafe Self Storage Sanford facility. Steiner announced a number of special lease rates surrounding the grand opening including one aimed specifically at local college students. A *free* moving truck rental is available with new leases (restrictions apply) and there is no long-term lease required.

StorSafe Self Storage offers four locations in Florida including Apollo Beach, which includes premier RV and boat storage solutions. All StorSafe locations provide the latest in security with 24-hour video-recorded surveillance and 24-7 computer access. For more information about availability and current grand opening specials visit www.storsafeselfstorage.com or call 407-936-STOR.
